# Subject Index

## Canadian Journal of Animal Science, Volume 78, 1998

Acide folique
  les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71
Acorn
  gamma-tocopherol in pigs fed acorns, 441
Age
  behaviour of early-weaned pigs, 517
Alfalfa silage
  alfalfa and fenugreek silages on performance of steers, 343
*Alphitobius diaperinus*
  tetrachlorvinphos dust against darkling beetles, 723
Alpine
  evaluation of Alpine and Boer crosses, 229
  factors affecting kid survival, 407
Amino acid
  amino acid digestibility of western Canadian wheat, 335
  chemical composition of ruminal bacteria, 115
  dehulled canola meal in diets for growing pigs, 641
  evaluation of a phenylalanine flooding dose procedure in pigs, 715
  protein quality for dairy cows, 95
Anaemia
  dogfish and dogfish silage in mink diets, 189
Antibody
  egg yolk antibody against bovine proteoglycan, 287
Apparent digestibility
  dogfish feedstuffs for mink, 633
*Aspergillus niger* phytase
  phytate hydrolysis in pigs, 175

*Brassica juncea* meal
  canola meals for pigs, 199
Backfat
  protein supplementation with winter grazing, 89
Backgrounding, prolonged
  backgrounding effect on beef steers, 359
Bacteriocin
  manipulating the rumen microflora with bacteriocins to improve ruminant production, S57
Barley
  alfalfa and fenugreek silages on performance of steers, 343
  barley metabolizable energy content, 389
  corn and barley for veal calves, 351
  dietary influences on beef palatability, 271
  feeding value of western Canadian wheat and barley, 649
  micronization of hulless barley for pigs, 81
  nutrient degradability of wheat and barley milling byproducts, 457
  nutritional quality of barley cultivars, 369, 377
  straw quality of Canadian barleys, 127
Barley cultivars
  straw quality of Canadian barleys, 127
Barley, hulless
  enzyme and hulless barley for young pigs, 625
Beef
  beef tenderness: within-steak variation, 711
  breed and diet differences on beef quality, 533
  dietary influences on beef palatability, 271
  eating quality of beef fed wet brewers' and distillers' grains, 143
Beef cattle
  diacylglycerol acyltransferase and intramuscular fat, 265
  economic values for beef production traits, 29
  effect of calving season on low calf productivity, 251
  herbage yield and intake of beef cattle, 211
  net energy of grass silages, 107
  sensitivity of economic values, 47
  ultrasound accuracy and repeatability, 277
Beef heifer
  oestrus synchronization in beef heifers, 437
Beef steer
  backgrounding effect on beef steers, 359
Beef storage
  vitamin E and beef storage in controlled atmospheres, 57
Behaviour
  behaviour of early weaned pigs, 517
  bunk attendance of feedlot cattle, 707
  movement and motivation of cattle, 421
  reducing ambient temperature in farrowing houses, 23
Belgian Blue bulls
  nitrogen metabolism during compensatory growth in bulls, 549
Bien-être des animaux
  comportement, bien-être et productivité des bovins laitiers, S3
Bioeconomic model
  economic values for beef production traits, 29
Biotine
  les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71
Bison
  energy partitioning in native ruminants, 681
Blood lipid
  whole canola seeds and lamb carcasses, 665
Boar taint
  quantitative 3-methylindole absorption to the portal vein in pigs, 69
Body weight
  onset of lay in Bronze turkey hens, 181
Boer
  evaluation of Alpine and Boer crosses, 229
*Bos taurus*
  diacylglycerol acyltransferase and intramuscular fat, 265
Botanical composition

Page numbers in **boldface** refer to abstracts. Page numbers preceded by the letter S refer to papers published in the supplement to Volume 78 containing the Proceedings of the Lennoxville Conference on Milk Production.

pasture quality and botanical composition, 205
Breed
dietary pyridoxine levels for sow reproduction, 167
Brewers' grain, wet
eating quality of beef fed wet brewers' and distillers' grains, 143
Broiler breeders
production effects of reproductive development, 615
reproductive development in broiler breeders, 603
Broiler chicken
amino acid digestibility of western Canadian wheat, 335
exoenzyme action in gastrointestinal tract, 599
feeding value of western Canadian wheat and barley, 649
Bromegrass
net energy of grass silages, 107
Bronze turkey
onset of lay in Bronze turkey hens, 181

Calcium
phytase and cholecalciferol in swine diets, 307
Calf
effect of calving season on low calf productivity, 251
Calf, veal
corn and barley for veal calves, 351
Calorimetry
energy partitioning in native ruminants, 681
Calpain
the calpain system, 503
Calpastatin
the calpain system, 503
Calving season
effect of calving season on low calf productivity, 251
Canadian Holstein
β-lactoglobulin and milk production traits, 245
Cannulation
cannulation of the distal ileum in ponies, 445
Canola meal
canola meals for pigs, 199
dehulled canola meal in diets for growing pigs, 641
protein supplements for lambs, 135
Canola seed
effect of dietary fat on milk composition, 693
whole canola seeds and lamb carcasses, 665
whole canola seeds and lamb performance, 657
Carcass
evaluation of Alpine and Boer crosses, 229
ultrasound accuracy and repeatability, 277
whole canola seeds and lamb carcasses, 665
Carcass composition
backgrounding effect on beef steers, 359
halothane gene and pig performance, 257
whole canola seeds and lamb carcasses, 665
Carcass quality
corn and barley for veal calves, 351
Cattle
bunk attendance of feedlot cattle, 707
differential scanning calorimetry, 449
herbage yield and intake of beef cattle, 211
movement and motivation of cattle, 421
quality and embryo production in cattle, 513
yield and cattle preference of grasses, 237
Cell wall
shearing force of alfalfa stems, 719
Cellular and molecular biology
cellular and molecular biology: a new section for Canadian Journal of Animal Science, 461
Chemical composition
chemical composition of ruminal bacteria, 115
maceration and N fractions of forages, 399
Chemical constituent
shearing force of alfalfa stems, 719
Chicken
egg yolk antibody against bovine proteoglycan, 287
tetrachlorvinphos dust against darkling beetles, 723
Cholecalciferol
phytase and cholecalciferol in swine diets, 307
Compensatory growth
nitrogen metabolism during compensatory growth in bulls, 549
Comportement
la recherche en production laitière au Centre de Lennoxville, S105
Comportement anormal
comportement, bien-être et productivité des bovins laitiers, S3
Composition
canola meals for pigs, 199
Constituants du lait
la clé de la valeur ajoutée: fractionnement et utilisation des constituants du lait, S149
Cooking properties
dietary influences on beef palatability, 271
porcine somatotropin effects on cooking and palatability, 701
Corn
corn and barley for veal calves, 351
dietary influences on beef palatability, 271
Correlation
parameters for milk yield and litter size, 525
Cortisol
natural light and adrenal responses to stress in pigs, 293
Cotton fur
dogfish and dogfish silage in mink diets, 189
Cow
in vitro steroid production by bovine granulosa cells, 587
Cow, lactating
textured versus pelleted concentrates for lactating cows, 219
Creatine kinase
vitamin E supplementation and creatine kinase, 147
Creep heat lamp
reducing ambient temperature in farrowing houses, 23
Crossbreeding
evaluation of Alpine and Boer crosses, 229
Crude protein
straw quality of Canadian barleys, 127

Dairy cattle
effect of dietary fat on milk composition, 693
movement and motivation of cattle, 421
nutrient flow in the lactating cow, S91

trends in milk component production, 413
Darkling beetle
tetrachlorvinphos dust against darkling beetles, 723
Decorin
egg yolk antibody against bovine proteoglycan, 287
Deer
energy partitioning in native ruminants, 681
Degradability
textured versus pelleted concentrates for lactating cows, 219
Dehulling
dehulled canola meal in diets for growing pigs, 641
Diacylglycerol acyltransferase
diacylglycerol acyltransferase and intramuscular fat, 265
Diet
eating quality of beef fed wet brewers' and distillers' grains, 143
gamma-tocopherol in pigs fed acorns, 441
Dietary enzyme
dietary influences on beef palatability, 271
Dietary fat
effect of dietary fat on milk composition, 693
Differential scanning calorimetry, 449
Digesta
exoenzyme action in gastrointestinal tract, 599
physico-chemical characteristics of digesta and faeces, 121
Digesta passage
propulsive movements and control of digesta passage, 15
Digestibility
canola meals for pigs, 199
differential scanning calorimetry, 449
energy partitioning in native ruminants, 681
enzyme and hulless barley for young pigs, 625
micronization of hulless barley for pigs, 81
nutritional quality of barley cultivars, 369, 377
protein supplements for lambs, 135
protein supplementation with winter grazing, 89
Digestibility, apparent
dogfish feedstuffs for mink, 633
Digestible amino acids
amino acid digestibility of western Canadian wheat, 335
Digestible protein
amino acid digestibility of western Canadian wheat, 335
Distal ileum
cannulation of the distal ileum in ponies, 445
Distillers' grains, wet
eating quality of beef fed wet brewers' and distillers' grains, 143
Diurnal variation
whole-body protein synthesis in growing barrows, 575
DNA
altering muscle growth, 493
Dogfish
dogfish and dogfish silage in mink diets, 189
dogfish feedstuffs for mink, 633
Duodenal digesta
physico-chemical characteristics of digesta and faeces, 121
Duodenum
protein quality for dairy cows, 95

Economic value
economic values for beef production traits, 29
sensitivity of economic values, 47
Egg production
production effects of reproductive development, 615
Electromyographic activity
propulsive movements and control of digesta passage, 15
Electrostatic duster
tetrachlorvinphos dust against darkling beetles, 723
Embryo
quality and embryo production in cattle, 513
Energy
nutrient flow in the lactating cow, S91
nutritional quality of barley cultivars, 369, 377
Energy, net
net energy of grass silages, 107
Energy metabolism
intestinal glucose absorption, 1
Enterocyte
epidermal growth factor and energy metabolism in the chick intestine, 327
Environment
shearing force of alfalfa stems, 719
Enzyme
amino acid digestibility of western Canadian wheat, 335
dietary influences on beef palatability, 271
enzyme and hulless barley for young pigs, 625
exoenzyme action in gastrointestinal tract, 599
feeding value of western Canadian wheat and barley, 649
Epidermal growth factor
epidermal growth factor and energy metabolism in the chick intestine, 327
Estradiol-17β
in vitro steroid production by bovine granulosa cells, 587
Éthologie appliqué
comportement, bien-être et productivité des bovins laitiers, S3
Ewe
preovulatory origin after induced luteolysis, 429
Expression
pig leptin mRNA expression, 473

Faecal suspension
rumen fluid or faecal solution as inocula for digestibility, 673
Faeces
differential scanning calorimetry, 449
Farrowing room
reducing ambient temperature in farrowing houses, 23
Fasting
starvation and energy metabolism in the chick intestine, 315
Fat
diacylglycerol acyltransferase and intramuscular fat, 265
effect of dietary fat on milk composition, 693
Feed
eating quality of beef fed wet brewers' and distillers' grains, 143
Feed restriction
production effects of reproductive development, 615
reproductive development in broiler breeders, 603
Feeding
movement and motivation of cattle, 421
Feeding behaviour
bunk attendance of feedlot cattle, 707

Feeding frequency
bunk attendance of feedlot cattle, 707
Feedlot
alfalfa and fenugreek silages on performance of steers, 343
Fenugreek silage
alfalfa and fenugreek silages on performance of steers, 343
Fertility
production effects of reproductive development, 615
*Festuca campestris*
protein supplementation with winter grazing, 89
Fibre
straw quality of Canadian barleys, 127
Fish by-products
dogfish feedstuffs for mink, 633
Fish meal
protein supplements for lambs, 135
Flooding dose
evaluation of a phenylalanine flooding dose procedure in pigs, 715
Forage
differential scanning calorimetry, 449
maceration and N fractions of forages, 399
protein supplements for lambs, 135
yield and cattle preference of grasses, 237
Fractionnement
la clé de la valeur ajoutée: fractionnement et utilisation des constituants du lait, S149

Gamma-tocopherol
gamma-tocopherol in pigs fed acorns, 441
Gas production
rumen fluid or faecal solution as inocula for digestibility, 673
Gender
porcine somatotropin effects on cooking and palatability, 701
Gene mapping
genetic determinants to improve meat quality, 483
Gene transfer
altering muscle growth, 493
Genetic response
expected responses from selection indexes, 157
Genetic selection
energetic efficiency of glucose uptake, 301
intestinal glucose absorption, 1
Genetic testing
genetic determinants to improve meat quality, 483
Genotype
shearing force of alfalfa stems, 719
Genotyping
the biological potential to alter the composition of milk, S23
Glande mammaire
la recherche en production laitière au Centre de Lennoxville, S105
Glucose
evaluation of a phenylalanine flooding dose procedure in pigs, 715
Glucose absorption
intestinal glucose absorption, 1
Glucose uptake
energetic efficiency of glucose uptake, 301
Goat
evaluation of Alpine and Boer crosses, 229
factors affecting kid survival, 407
Gonadotropin
in vitro steroid production by bovine granulosa cells, 587
Gonadotropin releasing hormone
oestrus synchronization in beef heifers, 437
Grain, brewers' and distillers'
eating quality of beef fed wet brewers' and distillers' grains, 143
Granadina
factors affecting kid survival, 407
Granddaughter design
β-lactoglobulin and milk production traits, 245
Granulosa cells
in vitro steroid production by bovine granulosa cells, 587
Grass
yield and cattle preference of grasses, 237
Grass silage
net energy of grass silages, 107
Grass-legume
herbage yield and intake of beef cattle, 211
pasture quality and botanical composition, 205
Grazing, winter
protein supplementation with winter grazing, 89
Growth
evaluation of Alpine and Boer crosses, 229
protein supplements for lambs, 135
Growth performance
breed and diet differences on beef quality, 533
Growth rate
body and velvet antler growth in wapiti, 225

Halothane gene
halothane gene and pig performance, 257
halothane gene, pork quality and swine deaths, 543
terminal sire breeds, 561
Hamline
terminal sire breeds, 561
Heat treatment
heat treatment effects on field peas, 453
Hébergement des veaux
comportement, bien-être et productivité des bovins laitiers, S3
Hereford
breed and diet differences on beef quality, 533
Heritability
parameters for milk yield and litter size, 525
Holstein, Canadian
β-lactoglobulin and milk production traits, 245
Hulless barley
enzyme and hulless barley for young pigs, 625

Ileal digestibility
dehulled canola meal in diets for growing pigs, 641
Ileum, distal
cannulation of the distal ileum in ponies, 445
Immune response
egg yolk antibody against bovine proteoglycan, 287
Index
expected responses from selection indexes, 157
Injection
dose-reponse of prolactin in lactating sows, 433
Inositol phosphates
phytate hydrolysis in pigs, 175
Insémination artificielle
nouvelles techniques pour améliorer l'efficacité reproductive des bovins laitiers, S113

Insulin
evaluation of a phenylalanine flooding dose procedure in pigs, 715
insulin responses to intravenous glucose in steers, 233
Insulin-like growth factors
in vitro steroid production by bovine granulosa cells, 587
Intake
differential scanning calorimetry, 449
herbage yield and intake of beef cattle, 211
Internationalisation de l'industrie laitière, S1
Intestine
intestinal glucose absorption, 1
Intestinal availability
heat treatment effects on field peas, 453
Intramuscular fat
diacylglycerol acyltransferase and intramuscular fat, 265
In vitro dry matter digestibility
rumen fluid or faecal solution as inocula for digestibility, 673

Jejunum
starvation and energy metabolism in the chick intestine, 315

$K^+$-ATPase
epidermal growth factor and energy metabolism in the chick intestine, 327
starvation and energy metabolism in the chick intestine, 315

Lactation
dose-reponse of prolactin in lactating sows, 433
reducing ambient temperature in farrowing houses, 23
textured versus pelleted concentrates for lactating cows, 219
β-lactoglobulin
β-lactoglobulin and milk production traits, 245
Lamb
barley metabolizable energy content, 389
protein supplements for lambs, 135
whole canola seeds and lamb carcasses, 665
Lamb growth
whole canola seeds and lamb performance, 657
Landrace
terminal sire breeds, 561
Large White
terminal sire breeds, 561
Legume, annual
alfalfa and fenugreek silages on performance of steers, 343
Leptin
leptin and farm animals, 463
pig leptin mRNA expression, 473
Leptin receptor
leptin and farm animals, 463
Leucine
whole-body protein synthesis in growing barrows, 575
Lighting
natural light and adrenal responses to stress in pigs, 293
Limit feeding
bunk attendance of feedlot cattle, 707
Line
dietary pyridoxine levels for sow reproduction, 167
Lipid, blood
whole canola seeds and lamb carcasses, 665
Litter size
parameters for milk yield and litter size, 525
Livestock production
leptin and farm animals, 463
Luteolysis
preovulatory origin after induced luteolysis, 429

Maceration
maceration and N fractions of forages, 399
Malignant hyperthermia
halothane gene, pork quality and swine deaths, 543
Marbling
breed and diet differences on beef quality, 533
insulin responses to intravenous glucose in steers, 233
Meat quality
altering muscle growth, 493
genetic determinants to improve meat quality, 483
halothane gene and pig performance, 257
natural light and adrenal responses to stress in pigs, 293
Metabolism
dietary pyridoxine levels for sow reproduction, 167
nutrient flow in the lactating cow, S91
Metabolizable energy
barley metabolizable energy content, 389
feeding value of western Canadian wheat and barley, 649
Methane
barley metabolizable energy content, 389
energy partitioning in native ruminants, 681
3-methylindole
quantitative 3-methylindole absorption to the portal vein in pigs, 69
Microbial fermentation
manipulating the rumen microflora with bacteriocins to improve ruminant production, S57
Microbial protein
physico-chemical characteristics of digesta and faeces, 121
Microflora
manipulating the rumen microflora with bacteriocins to improve ruminant production, S57
Micronization
micronization of hulless barley for pigs, 81
Microsatellite
intrabreed PICS of microsatellites, 425
Milk components
trends in milk component production, 413
Milk composition
effect of dietary fat on milk composition, 693
genetic polymorphism of milk proteins: relationships with production traits, milk composition and technological properties, S131
the biological potential to alter the composition of milk, S23
Milk fat
the biological potential to alter the composition of milk, S23
Milk pricing
expected responses from selection indexes, 157
Milk production traits
β-lactoglobulin and milk production traits, 245
Milk yield
parameters for milk yield and litter size, 525
Milling byproducts
nutrient degradability of wheat and barley milling byproducts, 457

Mineral
straw quality of Canadian barleys, 127
Mink
dogfish and dogfish silage in mink diets, 189
dogfish feedstuffs for mink, 633
Model, bioeconomic
economic values for beef production traits, 29
Motivation
movement and motivation of cattle, 421
mRNA
pig leptin mRNA expression, 473
Muscle
nitrogen metabolism during compensatory growth in bulls, 549
Muscle fibre
altering muscle growth, 493
Muscle protein breakdown
nitrogen metabolism during compensatory growth in bulls, 549
Myogenesis
altering muscle growth, 493

$Na^+$
epidermal growth factor and energy metabolism in the chick intestine, 327
starvation and energy metabolism in the chick intestine, 315
Net energy
net energy of grass silages, 107
Niacine
les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71
Nitrogen balance
nitrogen metabolism during compensatory growth in bulls, 549
Nitrogen fraction
maceration and N fractions of forages, 399
Nubian
factors affecting kid survival, 407
Nutrient degradability
nutrient degradability of wheat and barley milling byproducts, 457
Nutrition
dogfish and dogfish silage in mink diets, 189
la recherche en production laitière au Centre de Lennoxville, S105

Obese gene
pig leptin mRNA expression, 473
Obese protein
leptin and farm animals, 463
Oocyte
quality and embryo production in cattle, 513
Ouabain
epidermal growth factor and energy metabolism in the chick intestine, 327
starvation and energy metabolism in the chick intestine, 315
Ovarian follicular waves
preovulatory origin after induced luteolysis, 429
Ovary morphology
onset of lay in Bronze turkey hens, 181
reproductive development in broiler breeders, 603
Oxygen consumption
epidermal growth factor and energy metabolism in the chick intestine, 327
starvation and energy metabolism in the chick intestine, 315

Packaging
vitamin E and beef storage in controlled atmospheres, 57
Palatability
breed and diet differences on beef quality, 533
dietary influences on beef palatability, 271
Palatability attributes
porcine somatotropin effects on cooking and palatability, 701
Pasture
herbage yield and intake of beef cattle, 211
pasture quality and botanical composition, 205
Pea
heat treatment effects on field peas, 453
Peptides
intestinal glucose absorption, 1
Performance
enzyme and hulless barley for young pigs, 625
feeding value of western Canadian wheat and barley, 649
Peur
comportement, bien-être et productivité des bovins laitiers, S3
Phenylalanine
evaluation of a phenylalanine flooding dose procedure in pigs, 715
Phosphatidylcholine
protein quality for dairy cows, 95
Phosphorus
phytase and cholecalciferol in swine diets, 307
Photostimulation program
production effects of reproductive development, 615
reproductive development in broiler breeders, 603
Phytase
phytase and cholecalciferol in swine diets, 307
Pig
behaviour of early weaned pigs, 517
canola meals for pigs, 199
dehulled canola meal in diets for growing pigs, 641
enzyme and hulless barley for young pigs, 625
evaluation of a phenylalanine flooding dose procedure in pigs, 715
gamma-tocopherol in pigs fed acorns, 441
halothane gene and pig performance, 257
micronization of hulless barley for pigs, 81
natural light and adrenal responses to stress in pigs, 293
phytase and cholecalciferol in swine diets, 307
phytate hydrolysis in pigs, 175
pig leptin mRNA expression, 473
quantitative 3-methylindole absorption to the portal vein in pigs, 69
whole-body protein synthesis in growing barrows, 575
Plasma glucose
insulin responses to intravenous glucose in steers, 233
Polymorphic information content
intrabreed PICS of microsatellites, 425
Polymorphism
genetic polymorphism of milk proteins, S131
pig leptin mRNA expression, 473
Pony
cannulation of the distal ileum in ponies, 445
Porcine somatotropin
porcine somatotropin effects on cooking and palatability, 701
Porcine stress syndrome
halothane gene, pork quality and swine deaths, 543

Pork
porcine somatotropin effects on cooking and palatability, 701
Pork quality
halothane gene, pork quality and swine deaths, 543
Portal vein
quantitative 3-methylindole absorption to the portal vein in pigs, 69
Postmortem tenderization
the calpain system, 503
Prediction models
body and velvet antler growth in wapiti, 225
Preference
yield and cattle preference of grasses, 237
Probiotic
chemical composition of ruminal bacteria, 115
yeast and rumen bacteria, 241
Production laitière
la recherche en production laitière au Centre de Lennoxville, S105
Progesterone
in vitro steroid production by bovine granulosa cells, 587
Profit
expected responses from selection indexes, 157
Prolactin
dose-reponse of prolactin in lactating sows, 433
Prostaglandin $F_{2\alpha}$
oestrus synchronization in beef heifers, 437
preovulatory origin after induced luteolysis, 429
Protein
nutrient flow in the lactating cow, S91
protein quality for dairy cows, 95
Protein, crude
straw quality of Canadian barleys, 127
Protein, digestible
amino acid digestibility of western Canadian wheat, 335
Protein synthesis
whole-body protein synthesis in growing barrows, 575
Proteoglycan
egg yolk antibody against bovine proteoglycan, 287
Protozoa
protein quality for dairy cows, 95
Pyridoxine
dietary pyridoxine levels for sow reproduction, 167

Quality
pasture quality and botanical composition, 205
Quantitative absorption
quantitative 3-methylindole absorption to the portal vein in pigs, 69

Reducing sugar
exoenzyme action in gastrointestinal tract, 599
Repeatability
ultrasound accuracy and repeatability, 277
Reproduction
dietary pyridoxine levels for sow reproduction, 167
Reproductive disorders
onset of lay in Bronze turkey hens, 181
Reproductive traits
effect of calving season on low calf productivity, 251
Rescaling
sensitivity of economic values, 47
Respiration
energetic efficiency of glucose uptake, 301
Reticular contractions
propulsive movements and control of digesta passage, 15
Reticulo-omasal orifice
propulsive movements and control of digesta passage, 15
Rough fescue
protein supplementation with winter grazing, 89
Rumen
manipulating the rumen microflora with bacteriocins to improve ruminant production, S57
Rumen bacteria
chemical composition of ruminal bacteria, 115
yeast and rumen bacteria, 241
Rumen degradability
heat treatment effects on field peas, 453
Rumen fluid
rumen fluid or faecal solution as inocula for digestibility, 673
Ruminal contents
physico-chemical characteristics of digesta and faeces, 121
Rusitec
yeast and rumen bacteria, 241

Saanen
factors affecting kid survival, 407
Saliva
natural light and adrenal responses to stress in pigs, 293
Selection
expected responses from selection indexes, 157
Selenium
vitamin E supplementation and creatine kinase, 147
Sensory evaluation
eating quality of beef fed wet brewers' and distillers' grains, 143
Sexage
nouvelles techniques pour améliorer l'efficacité reproductive des bovins laitiers, S113
Shear
breed and diet differences on beef quality, 533
Shearing force
shearing force of alfalfa stems, 719
Sheep
parameters for milk yield and litter size, 525
Silage
alfalfa and fenugreek silages on performance of steers, 343
dogfish and dogfish silage in mink diets, 189
dogfish feedstuffs for mink, 633
net energy of grass silages, 107
whole canola seeds and lamb performance, 657
Silage, fenugreek
alfalfa and fenugreek silages on performance of steers, 343
Silage quality
dogfish feedstuffs for mink, 633
Simmental
breed and diet differences on beef quality, 533
Skatole
quantitative 3-methylindole absorption to the portal vein in pigs, 69
Skeletal muscle growth
the calpain system, 503
Small intestine
cannulation of the distal ileum in ponies, 445
energetic efficiency of glucose uptake, 301
Social behaviour
movement and motivation of cattle, 421
Somatotropin
porcine somatotropin effects on

cooking and palatability, 701
Sow
dietary pyridoxine levels for sow reproduction, 167
dose-reponse of prolactin in lactating sows, 433
reducing ambient temperature in farrowing houses, 23
Starch digestion
corn and barley for veal calves, 351
Steeping
phytate hydrolysis in pigs, 175
Steer
alfalfa and fenugreek silages on performance of steers, 343
nutritional quality of barley cultivars, 369, 377
Straw
straw quality of Canadian barleys, 127
Stress
comportement, bien-être et productivité des bovins laitiers, S3
halothane gene and pig performance, 257
natural light and adrenal responses to stress in pigs, 293
Swine
enzyme and hulless barley for young pigs, 625
halothane gene and pig performance, 257
pig leptin mRNA expression, 473
Swine deaths
halothane gene, pork quality and swine deaths, 543
Synchronization
oestrus synchronization in beef heifers, 437

Temperature, ambient
reducing ambient temperature in farrowing houses, 23
Tenderness
beef tenderness: within-steak variation, 711
Tetrachlorvinphos
tetrachlorvinphos dust against darkling beetles, 723
Textured versus pelleted concentrate
textured versus pelleted concentrates for lactating cows, 219
Time trends
trends in milk component production, 413
Timothy
net energy of grass silages, 107
Titratable acidity
physico-chemical characteristics of digesta and faeces, 121
γ-tocopherol
γ-tocopherol in pigs fed acorns, 441
Toggenburg
factors affecting kid survival, 407
Tracer techniques
whole-body protein synthesis in growing barrows, 575
Transfert embryonnaire
nouvelles techniques pour améliorer l'efficacité reproductive des bovins laitiers, S113
Transgénèse
nouvelles techniques pour améliorer l'efficacité reproductive des bovins laitiers, S113
Trimethylamine oxide
dogfish and dogfish silage in mink diets, 189
Turkey
energetic efficiency of glucose uptake, 301
onset of lay in Bronze turkey hens, 181
Turkey, Bronze
onset of lay in Bronze turkey hens, 181

Ultrasonography
preovulatory origin after induced luteolysis, 429
Ultrasound
evaluation of Alpine and Boer crosses, 229
ultrasound accuracy and repeatability, 277

Vaches laitières
les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71
Variation
beef tenderness: within steak variation, 711
Veal calves
corn and barley for veal calves, 351
Velvet
body and velvet antler growth in wapiti, 225
Viscosity
exoenzyme action in gastrointestinal tract, 599
physico-chemical characteristics of digesta and faeces, 121
Vitamin E
vitamin E and beef storage in controlled atmospheres, 57
vitamin E supplementation and creatine kinase, 147
Vitamine $B_{12}$
les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71
Vitamines du complexe B
les vitamins du complexe B chez la vache laitière: une nouvelle approche, S71

Wagyu
insulin responses to intravenous glucose in steers, 233
Wapiti
body and velvet antler growth in wapiti, 225
energy partitioning in native ruminants, 681
Weaning
behaviour of early weaned pigs, 517
Weight loss
protein supplementation with winter grazing, 89
Wet brewers' grain
eating quality of beef fed wet brewers' and distillers' grains, 143
Wet distillers' grains
eating quality of beef fed wet brewers' and distillers' grains, 143
Wheat
amino acid digestibility of western Canadian wheat, 335
feeding value of western Canadian wheat and barley, 649
nutrient degradability of wheat and barley milling byproducts, 457
Winter grazing
protein supplementation with winter grazing, 89

Yeast culture
yeast and rumen bacteria, 241
